Plagiarism is a form of cheating. It is taking and using someone else's thoughts, writings or inventions and representing them as your own. Plagiarism is a serious act and may result in a student's' exclusion from a unit or a course. When students have any doubts about including the work of other authors in their assessments, they must consult with their trainer to discuss the matter. The following list outlines some of the activities for which a student can be suspected of plagiarism or cheating:

- Presenting any work by another individual or group as one's own, intentionally or unintentionally
- Handing in assessments markedly similar to or copied from another student
- Allowing another student to copy one's work
- Handing in assessments without the adequate acknowledgement of sources used, including materials taken totally or in part from the internet.

Legitimate cooperation between students on assignments is encouraged, since it can be a real aid to understanding. It is legitimate for students to discuss assignment questions at a general level, provided everybody involved makes some contribution.
